

Dubbed Audio Specs

Please provide the audio files at the below specs:

AUDIO:

- The audio tracks should be split.
- There should be a clear layout/labeling of the tracks ie. (L,R,C,LFE,LS,RS).
- The audio files should be .wav files at 24fps / 24bit / 48kHz.
- A 2-pop should be inserted at the head of each reel.

If you have any questions please do not hesitate to email or call our lab:
